

Product Specifications and Benchmarks

Product Specifications

This document lists product specifications and benchmark comparison results. The introduction motivates the specification choices.

Table 1: Product specifications comparison

Model	RAM_GB	Cores	Price_USD
Base	8	4	499
Pro	16	8	899
Max	32	12	1399

Benchmarks

The benchmark comparison measures throughput and latency across the product lineup. Higher throughput indicates better performance.

Table 2: Benchmark comparison results

Model	Throughput_ops	Latency_ms
Base	1200	8
Pro	2400	5
Max	4100	3
